# **Research: Top Retail Sales Associates Job Requirements**

The Jobdescriptionandresume examples, JDRE, team conducts a research to reveal the top employers' requirements for the retail sales associate role in the United States.

This includes the major skills, abilities, knowledge, personality/physical attribute, minimum education, and experience that most employers want applicants for the retail sales associate position to meet to be hired.

The research involves a study of job postings on the major job boards by 135 U.S. companies for the retail sales associate position across a wide range of retail stores, including grocery, luxury goods, jewelry, fashion, pharmacy, shoes, hospitality, furniture, gold exchange, and hardware stores.

# **Research Data and Statistics**

The findings from the study give the following data and statistics:

## • Communication Skill

About 68% of employers sampled require applicants for retail sales associate role to have strong communication skill.

Sales associates need to be able to effectively communicate the features and benefits of their products to potential customers.

### • Customer Service Skill

56% of employers require applicants to have customer service skill to be hired for the retail sales associate job.

Provision of top-notch customer service is important to retail stores. Sales associates need to be able to give their customers the best service possible to keep their patronage for their company.

#### • Interpersonal Skill

37% of employers require individuals seeking the retail sales associate job to have good interpersonal skill.

Sales associates mostly work with people of diverse backgrounds and so need to be able to effectively interact and relate with them and close deals.

#### Organizational Skill

About 30% of employers want the sales associates they are hiring to have a good organizational skill.

Retail sales associates are expected to be able to keep the sales floor clean and organized.

## Problem Solving Skill

25% of retail stores require their sales associates to have good problem solving skill.

The job of the sales associate requires them to help customers resolve issues that may occur.

## Multi-tasking Skill

Also, 25% of employers require candidates for the retail sales associate position to have multi-tasking skill.

The sales associate needs to be able to perform multiple functions simultaneously to be effective in their job.

## • Basic Computer Skill

About 19% of employers sampled say they want their sales associates to have basic computer skill.

The role of a retail sales associate involves working on computers, including imputing data into computers and using Microsoft Office package.

#### Basic Math Skill

About 15% of employers require candidates for retail sales associate position to have basic math skill.

Math skill is necessary for sales associates to be able to effectively handle cash, including calculating change.

#### Attention to Detail Skill

14% of retail stores require individuals seeking the role of sales associate to have attention to detail skill.

Sales associates need to be detailed oriented to be effective in their job, including arranging items on shelves.

#### Sales Skill

13% of sampled employers require candidates to have sales skills to get the retail sales associate job.

A sales associate needs some sales skills to be successful in achieving sales target.

## Prioritizing Skill

11% of retail stores sampled require having prioritizing skill to be hired for the sales associate position.

Sales associates need to be able to prioritize their duties so they can get more important things done and achieve better result.

#### What Does a Retail Sales Associate Do?

A retail sales associate is responsible for helping a store meet and exceed its sales goals and ensure customers continue to patronize their store.

See detailed retail sales associate job description.

## Conclusion

The above research has revealed the important requirements, including skills, abilities, knowledge, personality/physical attributes, and experience that employers typically want candidates for the retail sales associate position to meet to be hired.

The data and statistics that have been generated are useful to both employers and job seekers.

Employers looking to hire for the retail sales associate role can apply the above data and statistics in preparing the job requirements for candidates to meet to be hired.

Also, individuals seeking to work as a sales associate can learn the common requirements to be hired for the position and improve themselves on them.
