

Home Depot Lumber Sales Associate Job Description

- Interacting with customers to answer questions
- Assisting the customer in making their purchase decisions
- Taking inventory of lumber products on hand, replenishing shelves to ensure good customer service by keeping all displayed materials stocked and well organized
- Keeping aisles or work areas as clean as possible
- Operating material handling equipment such as forklifts, reach trucks, and order pickers to move product around the warehouse
- Using measuring devices such as tape measures, callipers, rulers, and levels to verify dimensions on materials being stocked on shelves or loaded into vehicles
- Ensuring the accuracy of receiving reports by inspecting materials as they are delivered and verifying that stock levels reflect existing inventory
- Checking store signage for display repair and maintenance
