

Private Housekeeper Job Description

- Providing general cleaning in public areas of the house
- Cleaning and maintaining the plumbing systems with assistance from other personnel if needed
- Checking the water levels to make sure everything is functioning properly
- Examining water pipes and faucets, as well as cleaning them in order to prevent leakage or damage to any of them
- Cleaning and maintaining the lawn and shrubs
- Making sure that all the floors are clean and properly maintained
- Cleaning up after construction or repairs has been done on the house or apartment, so it won't look like a wreck when somebody sees it
- Maintaining and keeping the windows, doors, walls, and floors clean at all times
- Use eco-friendly cleaning products if available for better results on the job
- Maintaining and keeping appliances, like dishwashers and washing machines in good condition. This will help avoid accidents, especially when there will be children within the vicinity.
